

# Sil-Fixx CannuGuard Sterile

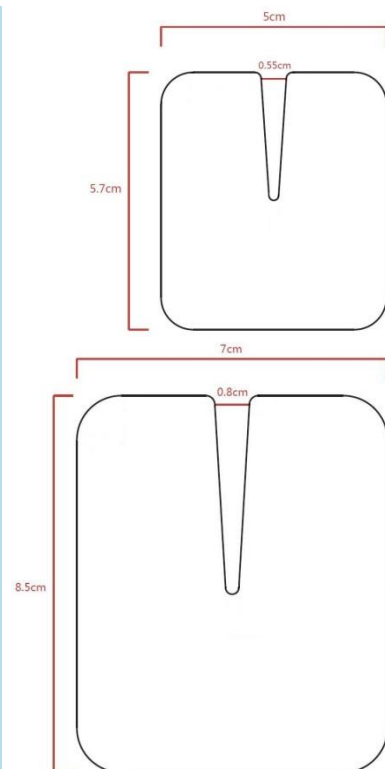

Conlett Sil-Fixx CannuGuard Sterile uses silicone adhesive technology to protect cannula entry points while securely holding the cannula in place.

- Silicone is ideal for sensitive skin
- Incomparable patient comfort

Sil-Fixx CannuGuard is a sterile disposable device suitable for both temporary and permanent catheters.

Constructed from our popular Sil-Fixx silicone technology, the CannuGuard secures the catheter while protecting both damaged and sensitive skin.

- Silicone adhesive has excellent adhesion but is gentle to remove.
- Ideal for, paperskin, neonatal, elderly, dialysis chemotherapy, & radiography patients.
- Appropriate for use on damaged skin
- Improved asepsis
- Pain free and stress free removal
